200.00	"	"	"	"	50.00	" " " "

In selecting your choice of FREE seedlings from this list please be assured that the FREE seedlings will be of the same high quality as the regular seedlings offered.

If you wish, your order will be shipped within a week by AIR EXPRESS, or - should you be worried about the weather in your neighborhood - your plants will be held, without additional charge, until Spring.

With safe delivery GUARANTEED, there is an obvious advantage - several weeks of Florida sunshine plus several weeks additional growth - in having your seedlings spend the rest of the winter in Florida.

For example, those seedlings in community pots which "will not need repotting for ninety days" will be about ready to repot when you receive them.

DANIEL RYERSON, Route 2, Box 522, Homestead, Florida

The following choice hybrid orchid seedlings - some in individual and some in community pots - are ready to ship now. Prices are net cash with order. Shipment, by regular or AIR express as you direct, will be made promptly. No packing charge. Safe delivery GUARANTEED. Offered subject to prior sale.

- # 53 C. Gaskelliana X C. trianae Each
- C. Gaskelliana, seed parent, warm mauve; deep purple band on nicely frilled lip. Throat lined with gold. Robust, vigorous grower.
C. trianae, pollen parent, medium lavender, strong, well-held bloom.
- Vigorous $2\frac{1}{2}$ inch plants in $1\frac{3}{4}$ inch individual pots 3.00
Extra vigorous three inch plants in $2\frac{1}{4}$ inch individual pots 5.00
(These three inch plants should bloom a year earlier)
- # 54 C. Mossiae X C. Gaskelliana
- C. Mossiae (The Easter Orchid) seed parent. Large, deep lilac; purple lip with bright yellow markings. Very fragrant.
C. Gaskelliana, pollen parent, described above (#53)
- Extra vigorous three inch plants in $2\frac{1}{4}$ inch individual pots 5.00
- # 60 C. Nutley alba X C. Mab
- C. Nutley alba, seed parent. Lovely white; purple & gold lip. Spring.
C. Mab, pollen parent. Fine, light - almost white - Spring bloom.
- Vigorous $2\frac{1}{2}$ inch plants in $1\frac{3}{4}$ inch individual pots 2.50
 $2\frac{1}{2}$ inch community pots, 25, or more, plants each. 25.00
(Ready to shift now)
- # 61 C. Enid. Standard commercial cross of C. Gigas & C. Mossiae
- Enid, lovely fragrant lavender blooms with deep purple ruffled lip. Brilliant yellow eyes in throat. Blooms over a long season, usually several flowers on every spike. Very desirable commercial orchid.
- Although this grand cross has been made many, many times, obviously, the better the individual parent plants; the better the resulting Enids. In this cross two outstanding plants were used and these Enids are certain to be much superior to the many average Enid crosses.
- Extra vigorous 2 inch plants in $1\frac{3}{4}$ inch individual pots 2.50
Larger plants in $2\frac{1}{4}$ inch individual pots 5.00
5 inch plants in 3 inch individual pots 6.00
- # 62 C. Enid X C. Dinah
- An extra fine, large light-colored Enid carried the seed pod.
C. Dinah, an extra full, late Winter bloom; medium orchid-colored S & P; deep purple lip, well marked bright yellow throat, furnished the pollen.
- $2\frac{1}{2}$ inch community pots 25 or more plants per pot. 25.00
(Will not need repotting for ninety days)
- # 63 C. Gloriette X Lc St. Gothard
- Both parents were fine large, Winter blooming purples. Lc St. Gothard has produced many fine hybrids. Usually blooms twice yearly.
- $2\frac{1}{2}$ inch community pots, 25 or more plants each. 25.00
(Will not need repotting for ninety days)
- # 64 Lc Martinetti X C. Hardyana var Colossus X Lc Page Platt
- Seed parent, an "unnamed" cross has stressed the YELLOW influence of its L. tenebrosa blood. Page Platt, a fine big YELLOW of good substance and great commercial appeal should insure grand Spring YELLOWS.
- $2\frac{1}{2}$ inch community pots with not less than 30 plants each 30.00
(Will not need repotting for ninety days)
- # 65 C. King George x Lc Sunburst X L. tenebrosa
- Seed parent, an "unnamed" cross was a beautiful bloom; orange-yellow S & P; large purple lip, veined gold. Pollen parent, L. tenebrosa, a large golden-bronze bloom with intense, velvety purple lip. The cross should bloom outstanding commercial Yellows as tenebrosa has always been potent in passing along its YELLOW influence and tones.
- Three inch community pots, fifty or more plants. (See footnote) 40.00

The following shows hybrid origin aircraft - those in which the engine and propeller are of different make - are likely to show such a variation in performance by reason of air resistance. Aircraft of the same make, but of different origin, are likely to show a variation in performance by reason of air resistance. Aircraft of the same make, but of different origin, are likely to show a variation in performance by reason of air resistance.

Figure 1 shows the results of the regression analysis. The results show that the regression model is significant at the 0.05 level, $F(1, 10) = 10.00$, $p < 0.05$. The regression equation is $y = 0.0001x + 0.0001$, where y is the dependent variable and x is the independent variable. The regression coefficient is 0.0001, which is not significant at the 0.05 level, $t(10) = 0.0001$, $p > 0.05$. The regression coefficient is 0.0001, which is not significant at the 0.05 level, $t(10) = 0.0001$, $p > 0.05$.

1. The above information was obtained from the files of the FBI, New York Office, and is being furnished to you for your information.

(Will not be accepted for entry duty)

Black community boys with not less than 30 days

08:00

188. O. King George x la. (Gardner) X L. (Gardner)
Seed parent: "L. (Gardner)" cross was a beautiful, orange-yellow
x 1/2 large purple 1st, white 2nd. Yellow parent, L. (Gardner), a
large, golden-yellow flower with intense, yellow purple 1st. The cross
still shows considerable amount of yellow as Gardner has always
been noted for having the yellow influence and tone.

17. The following information is for your information only. It is not to be used for any other purpose.

- # 66 Lc Pamela x C. Gatton Ruby X Bc Hartland
Seed parent, an "unnamed" cross was a fine, dark, extra large bloom with well-formed, massive purple-crimson lip and distinctive yellow throat. Bloomed in January. NOTE: This year, the same plant bloomed November 1st. Had you seen the air of obvious pride with which it carried its three eight inch blooms you would surely add this cross to your collection. Bc. Hartland, pollen parent, a large, well-formed bloom of excellent shape, heavy texture, with lovely fringed lip and golden throat. December.
- | | |
|---|-------|
| 2½ inch community-pots, forty or more plants each | 25.00 |
| 3 " " " 50 to 60 plants each (See footnote) | 35.00 |
- (Will not need repotting until Spring)
- # 67 Blc Dryades X Bc Hartland
Dryades, seed parent, a vivid orchid-colored self with wide open throat. Generous size bloom; extra heavy texture. December. Hartland, pollen parent (described in # 66) should help carry on all these fine qualities. A valuable addition to Winter blooming commercials. Probably one of the best commercial crosses I offer.
- | | |
|--|-------|
| Three inch community pots, 50 to 60 plants each (See footnote) | 35.00 |
|--|-------|
- # 68 Lc Sam Huston X C. Clothilde
Seed parent, Sam Huston, a medium sized, well-formed bloom with orchid-colored S&P, vivid purple lip, gold veined throat. Winter. Clothilde, pollen parent, medium-sized bright orchid-colored S & P; glowing dark purple lip, marked yellow. Winter blooming.
- | | |
|---|-------|
| 2½ inch community pots, 20 or more 1½ in plants, ready to shift | 25.00 |
| 3 " " " 50 to 60 plants each (See footnote) | 35.00 |
- # 69 C. Nutley alba X C. Priscilla alba
Nutley alba, seed parent, a beautiful large bloom with pure white S & P; deep, velvety purple lip; extra large yellow eyes. Late Summer. Priscilla alba, pollen parent, a large white bloom of fine shape; brilliantly striped purple & yellow lip and throat. Early Autumn.
- | | |
|--|-------|
| 2½ inch community pots, 25 or more plants each | 25.00 |
| 3 " " " 50 to 60 plants each (See footnote) | 35.00 |
- # 71 C. Lady Veitch x C. White Empress X C. Edithiae
Seed parent, an "unnamed" cross, was a fine, large, seven-inch pure white well-formed bloom with small yellow spot high in throat. Edithiae, another seven-inch pure white fine-textured bloom with greenish-yellow shadow high in throat. This cross should bloom outstanding pure white orchids.
- | | |
|--|-------|
| 3 inch community pots, fifty or more plants each. (See footnote) | 40.00 |
|--|-------|
- # 72 C. Speciosissima X C. Priscilla Alba
This Speciosissima seed parent was THE outstanding bloom among 140 plants, being larger, heavier and longer lasting than the other in this species. Extremely light colored and very fragrant. Early spring. C. Priscilla alba, pollen parent, was pure white with brilliantly striped purple lines in lip and throat. Late autumn.
- | | |
|--|------|
| Vigorous 2 inch plants in 1 3/4-inch individual pots | 2.50 |
| " 3½ " " (save a year) in 2½ inch " " | 4.00 |
| Husky larger plants in three inch pots | 6.00 |
- # 73 C. Maggie Raphael alba X C. Dowiana
Seed parent, a pure white C. Maggie Raphael, pollinated by an extra fine yellow Dowiana with vivid crimson lip, should bloom exceptionally interesting flowers. Winter.
- | | |
|--|------|
| Vigorous 2 inch plants in 1 3/4-inch individual pots | 2.50 |
| " 3 inch " (save a year) in 2½ inch " " | 4.00 |
| Husky larger plants in three inch pots | 6.00 |
- # 74 C. trianae X Lc Gloria
This trianae seed parent was a fine, dark, carefully selected bloom. Lc Gloria was extra large and also very dark.
- | | |
|--|------|
| Vigorous 2 inch plants in 1 3/4-inch individual pots | 2.50 |
| " 3 " " (save a year) in 2½ inch " " | 4.00 |
| Husky larger plants in three inch pots | 6.00 |

75 C. Lord Rothschild X Brassavola Nodosa

C. Lord Rothschild, seed parent, was a good sized, medium orchid colored bloom with golden throat. B. Nodosa is small, a 4 inch, pure white, spidery bloom, of little commercial value. The intriguing factor is the influence (already obvious even in the seedlings) of the Lord Rothschild blood. It just might turn out to be impressive.

Vigorous 4 inch plants in 2½ inch individual pots 4.00
" 5 to 5 " " 3 " " 6.00

76 Lc Eva Schill X C. Enid

This Lc Eva Schill, seed parent, was a very dark Baldwin cross. C. Enid, also a Baldwin cross, was one of his best. Baldwin is especially famous for his Enids.

Vigorous 2 inch plants in 1-3/4 inch individual pots 2.50

77 Dendrobium Phalaenopsis X Dendrobium Phalaenopsis (two strains)

D. Phalaenopsis rapidly increasing in popularity for its very long lasting (4 weeks or more) sprays of orchid colored blooms.

Husky 5 inch plants in 3 inch individual pots 5.00

78 Dendrobium Primulinum X Dendrobium Primulinum (two strains)

This is one of the finest of the Dendrobiums, with 4 to 5 inch blooms. Dark orchid colored with dark maroon splotch in lip. Extra floriferous, long lasting and very fragrant.

Husky 5 inch plants in 3 inch individual pots 6.00

85 C. trianae alba X C. Ella May Sutton

The trianae alba was a fine, extra large pure WHITE of grand form and texture. Could easily pass as a hybrid. C. Ella May Sutton, a splendid 7 inch pure white, had a touch of yellow high in throat. This cross undoubtedly will bloom outstanding pure whites. Winter.

These seedlings in flasks, now ready for community pots, are offered for April delivery in

2½ inch community pots, 25 or more plants 25.00
3 " " " 50 to 60 " 40.00

(A deposit of half the cost will hold your order of these plants for you.)

THREE EXTRA CHOICE HYBRID ORCHID SEEDLINGS - Two grand YELLOWS & A PURE WHITE

LS 10C. C. Gaskelliana alba X C. Ben Nevis (Alcimedea alba x intertexta, Juliettas)

Seed parent Gaskelliana alba was an extra large, prize-winning pure white bloom of heavy texture; golden throat. Late Spring (June). C. Ben Nevis pollen parent was an eight-inch white bloom with just a touch of gold high in throat. Very free-flowering. Variable season.

LS 2 Lc S. J. Bracey X C. Aurea x C. Dowiana

Seed parent S. J. Bracey (Lc Mrs. Meda, Stonehurst x Lc Thebes, Bronze King) was a large yellow bloom with a crimson lip, flushed with rose. Autumn. Pollen parent, a cross of C. Aurea & C. Dowiana, was an eight-inch yellow bloom with vivid, rich crimson lip, shot with purple & gold. Autumn.

LS 9 Lc Braceyana (Luster x C. Labiata) X C. Cocopa (an Arm-Roy cross)

These two fine orchids should bloom extra fine, large YELLOWS with dark, vivid lips. Early Winter.

Extra large, strong seedlings - every one growing vigorously and with one or more new leads well started. Recently repotted in 4 inch pots. Each should bloom within the next two years. These three grand crosses were not grown for sale as seedlings; they were intended for mature STUD plants. However, lack of space made it necessary to offer a few for sale.

Price \$20.00 each, or three plants - your selection - \$50.00

FOOTNOTE: Plants in 3 inch communities are small but growing vigorously. At the price quoted, I consider them the best buy on my list.

I used quotes in listing some crosses "unnamed". Probably they have been named by now and will be found listed in the new SANDER'S COMPLETE LIST OF ORCHID HYBRIDS.

Lord Rothschild's blood. It just might turn out to be imperative.

CC-1
CC-2

* To Lo Eva Schilli X C. Enid
This Lo Eva Schilli, seed parent, was a very dark Baldwin cross.
C. Enid, also a Baldwin cross, was one of his seeds. Baldwin is
especially famous for his Enids.

3. Vigorous 2 inch plants in 1-2/4 inch individual pots

77 *Leandrothrips Phalaenopsis* X *Leandrothrips Phalaenopsis* (two strains)
D. *Leandrothrips* rapidly increasing in popularity for the very long
lasting (4 weeks or more) arrays of ornate colored blossoms.

Wusky 5 inch piglets in 8 inch individual pots

Extra floriferous, long lasting and very fragrant.
 flowers. Dark orchid colored with dark maroon splash in lip.
 This is one of the finest of the Lambrochiums, with 4 to 6 inch
Lambrochium Primulinum X Lambrochium Primulinum (two strains)

55 3. various size X 0.5 mm long
The various size was a fine, extra large pure WHITE of grand form and texture. Could easily pass as a hybrid. C. 0.5 mm long in diameter. A splendid 7 inch pure white, had a touch of yellow high in the back. This cross undoubtedly will bloom outstanding pure white. WINTER.

These meetings in Alaska, now ready for community posts, are offered for April delivery in

THREE EXTRA CHOICE HYBRID ORCHID SEEDLINGS - Two stand YELLOW & A PURE WHITE

124 G. Gaskelliana also X G. Ben Nevis (Albomade alba x intertexta, Julistae)
Seed parent Gaskelliana also very extra large, prize-winning pure white
bloom of heavy texture; golden throat. Late Spring (June).
G. Ben Nevis pollen parent was an eight-inch white bloom with just a touch
of gold right in throat. Very free-flowering. Variable season.

12-2 Ia-8 J. Brandy X C. Ames x C. Dowlan

Seed parent: J. Brandy (No Mrs. Webb, Stonehurst x La Tabes, Bronson King)
was a large yellow bloom with a crimson lip, finished with rose. Anthers.
Pollen parent: a cross of C. Ames & C. Dowlan, was an eight-inch yellow
bloom with violet, rim crimson lip, shot with purple & gold. Anthers.

129 is brownish (water & C. L. L. L.) X C. Cooper (an Ar-Roy cross)
These two line orchids should bloom extra fine, large YELLOWS with dark
vivid lips. Early winter.

Extra large, strong seedlings - every one growing vigorously and with one or more new leads well started. Recently reported in a fresh pot. Each should bloom within the next two years. These three grand crosses were not grown for sale as seedlings; they were intended for mature STUP plants. However, lack of space made it necessary to offer a few for sale.

Price \$20.00 each or three plants - your selection - \$60.00

Plants in 5 inch compartments are small but growing vigorously. As the price quoted, I consider them the best buy on my list.

I need quotes in listing some crosses "unnamed". Probably they have been named by now and will be found listed in the new SANDER'S COMPLETE LIST OF ORCHID HYBRIDS.
